Lucky Bear Tap

Update anytime. *No reprinting.*

NFC tap cards, stands, window stickers and tags. One tap opens your page. Change what it shows whenever you like.

HOW A TAP WORKS

Three steps. No app.

1
Hold it to a phone
The card, stand, sticker or tag has a small chip inside. Every piece also carries a QR code.

2
Your page opens
Contact buttons, listings or inventory, reviews, paperwork links and a lead form.

3
Change it anytime
New listing, new price, new hire. Edit your page or re-point a card yourself. The card stays the same.

Which phones
iPhone XS and newer, and most Android phones. Older phones scan the QR code.

What is included
3 years of hosting and updates with every setup. No monthly fee.

A tap never charges anyone
The chip holds a web address and nothing else. It cannot reach a wallet or a bank.

Who makes it
Gus and Kelsie, Luckey Bear Creations LLC, Minot, North Dakota.
